

Emmanuel Okafor

Full-Stack Developer

Lagos, Nigeria

Phone: 08120692042

Email: emmanuelobinna62@gmail.com

Professional Summary

Detail-oriented Full-Stack Developer skilled in building responsive, user-friendly web applications from front-end to back-end. Proficient in HTML, CSS, Tailwind CSS, JavaScript, and Python (Django), with strong ability to create clean interfaces, develop backend logic, and build scalable web solutions. Passionate about writing clean code, improving website performance, and delivering modern applications that support business growth.

Technical Skills

Languages: HTML5, CSS3, JavaScript (ES6+), Python

Frameworks & Libraries: Django, Tailwind CSS

Version Control: Git, GitHub

Tools: VS Code, Chrome DevTools, Figma, npm

Other Skills: Responsive Design, Cross-Browser Compatibility, Website Performance Optimization, REST API Integration, Database Management (SQLite)

Professional Experience

Personal Projects / Self-Directed Development (2023 – Present)

- Built full-stack web applications using Django, Tailwind CSS, and JavaScript.
- Developed responsive websites and implemented backend features such as dynamic content rendering.
- Implemented structured layouts and reusable components for clean and scalable development.
- Used Git and GitHub for version control and project tracking.
- Optimized performance by improving image loading, layout responsiveness, and clean coding practices.

Projects

1. Real Estate Website (Property Listings Platform)

- Developed a real estate web application that displays property listings and property details.
- Built responsive UI pages using Tailwind CSS for smooth user experience on all devices.
- Structured the backend with Django to manage and display property data dynamically.
- Designed clean navigation and organized layout for easy property browsing.

2. Restaurant Website (Menu + WhatsApp Ordering System)

- Built a restaurant website that displays food menu items with pricing and descriptions.
- Integrated WhatsApp ordering functionality, allowing customers to send orders directly to the vendor.
- Ensured mobile responsiveness for customers ordering through phones.
- Optimized the website layout and images for faster load speed and better user experience.

Certifications

None (Currently building projects and improving skills)
